

## LEAD 101G: ASSISTANT GUIDE'S COURSE

PREVIOUS TRAINING OR EXPERIENCE RECOMMENDED.

### DATES

May 1–9, May 15–23, September 11–19, 2010

### PRICE

\$1550 CAD (+ \$115 CAD for 4 nights shared accommodation)  
+ GST.

### COURSE GOAL

The goal of this course is to prepare intermediate paddlers to lead groups of kayakers in BC coastal waters. It is a prerequisite for those who wish to become certified as sea kayak guides. Our course is endorsed by the Association of Canadian Sea Kayak Guides and the Sea Kayak Guide's Alliance of BC. Participants who successfully complete the course and meet ACSKG or SKGABC requirements will be eligible for Assistant Guide certification. Successful participants will also be eligible for SKGABC Level One (Day Guide) certification.

### ITINERARY

You'll spend the first three days perfecting your kayaking technique: navigation, seamanship, leadership techniques, basic and intermediate strokes, playing in tidal rapids, and surf zone skills. The first four nights you'll stay in Tofino, at the Whalers on the Point Guest House. You will do your own meals in town. We provide all meals on the out-trip.

We'll then embark on a 6-day trip into Clayoquot Sound. The trip will allow time to practice and finesse navigation and seamanship skills. You will be paired up for a day with another participant. Each team will assume all the responsibilities of group leaders for one day—from planning the itinerary, to navigating, to cooking meals.

### COURSE OBJECTIVES

You will learn:

- a philosophy of safety that emphasizes **seamanship, judgement**, and personal responsibility.
- a philosophy of **leadership** that emphasizes client care and incident prevention.
- techniques for **keeping a group together on the water**.
- kayak **strokes** including edging, turning, draws, and bracing.
- **paddling in tidal currents**, including ferry glides and eddy turns.
- **surf zone skills** including side-surfing, launching and landing.
- assisted and solo **re-entry procedures** including paddle float rescue, assisted re-entry, and the sling rescue.
- towing techniques
- **navigational skills** specific to coastal travel, including chart-reading, use of tide tables, interpreting marine weather forecasts, and route-finding while underway.
- how to use a **compass**, and to navigate in fog.
- Leave No Trace ethics and **camping techniques** including site selection, camp set-up, waste disposal, and wildlife etiquette.
- **camp cookery**.
- natural and cultural history **interpretation**.
